

STANDARD RANGE | 2012

## About GMT Spas:

Each and every one of our spas is sculpted from the very best raw materials on the market today, with water, chemical and heat resistant fibreglass and gelcoat materials, as used in the marine industry, and then finally coated with a heat retaining polyurethane foam.

The finished surface of every bespoke Mosaic Tiled Spa is down to individual client preferences, from standard ceramic tiles to the explosive colours and styles offered by designer tiles from the likes of SICIS, Mosaico and Craig Bragdy. Tiles are adhered to the surface of our spas with market leading adhesives and epoxy grouts, designed specifically to cope with heat, flex, water and chemical resistance.

Todos y cada uno de nuestros spas se esculpen partiendo de la mejores materias primas en el mercado actual, utilizando agua, fibra de vidrio resistente al calor y a productos químicos, materiales gel coat, utilizados en la industria marina, y finalmente un recubrimiento con espuma de poliuretano que permite la retención del calor.

Los mosaicos resultantes en cada superficie final se realizan bajo pedido en función de las preferencias individuales de nuestros clientes, desde azulejos estándar hasta colores y estilos explosivos proporcionados por diseñadores de la talla de SICIS, Mosaico y Craig Bragdy. Los azulejos son adheridos a la superficie de nuestros spas con adhesivos líderes en el mercado y lechada epólica, diseñados específicamente para resistir el calor, el agua y los productos químicos.

Chacune et chacun de nos spas est sculpté à partir des meilleurs matériaux bruts sur le marché aujourd'hui, avec de l'eau, des produits chimiques et fibres de verre résistant à la chaleur et les matériaux de gelcoat, tel qu'il est utilisé dans l'industrie maritime, et puis finalement recouvert d'une mousse de polyuréthane retenant la chaleur.

La surface finie de tous les spas Mosaic sur mesure carrelé est en baisse aux préférences de chaque client, à partir de standards carreaux de céramique aux couleurs explosives et de styles offerts par des tuiles concepteur de l'aime de SICIS, Mosaico et Craig Bragdy. Les tuiles sont collées à la surface de nos spas avec des adhésifs leader sur le marché et coulis époxy, conçu spécifiquement pour faire face à la chaleur, résistance à la flexion, de l'eau et des produits chimiques.

Jede und jeder von unseren Spas wird aus den besten Rohstoffen auf dem Markt geformt heute mit Wasser, chemische und thermische Fiberglas und Gelcoat Materialien, wie in der maritimen Industrie verwendet, und dann schließlich mit einem wärmespeichernden Polyurethanschaum beschichtet.

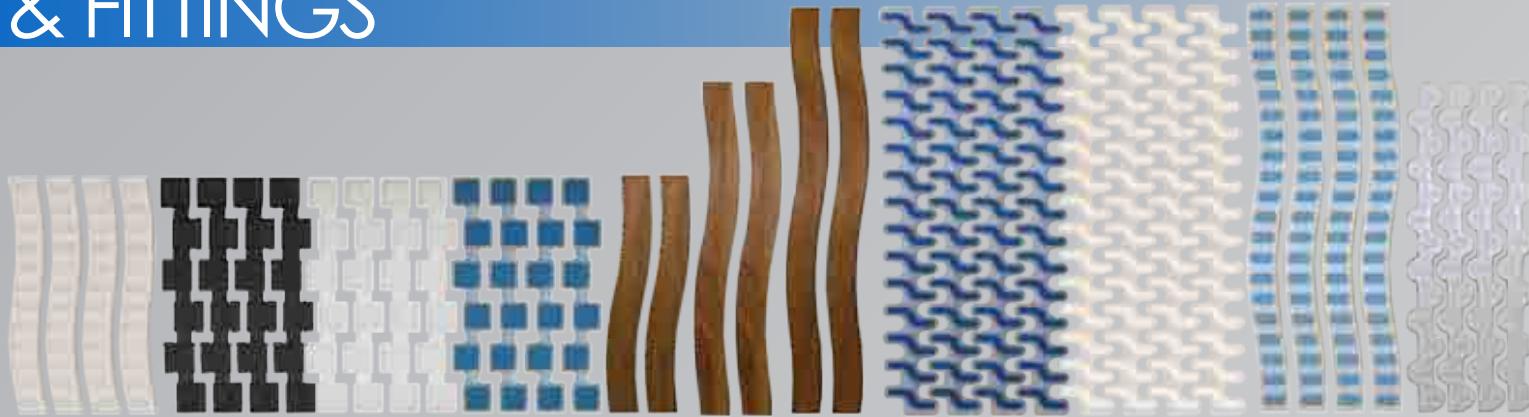

Die fertige Oberfläche jedes maßgeschneiderte gedeckte Mosaik Spa bis hin zu einzelnen Client-Einstellungen, von Standard Keramikfliesen zu den explosiven Farben und Stile von Designer Fliesen von den Gleichen von SICIS, Mosaico und Craig Bragdy angeboten. Die Fliesen werden auf die Oberfläche unseres Spas mit marktführenden Klebstoffe und Epoxidharz Fugenmörtel und Anregungen haben, speziell mit Wärme, flex, Wasser-und Chemikalienbeständigkeit bewältigen ausgelegt.

Ognuno dei nostri centri termali è scolpita dalle materie prime migliori oggi sul mercato, con acqua, sostanze chimiche e fibra di vetro resistente al calore e materiali di gelcoat, come utilizzato nel settore nautico, e poi finalmente rivestito con una conservazione del calore in poliuretano espanso.

La superficie finita di ogni misura Spa Mosaic piastrella è giù alle preferenze dei singoli clienti, da standard di piastrelle in ceramica ai colori esplosivi e stili offerti da piastrelle di design del calibro di SICIS, Mosaico e Craig Bragdy. Le piastrelle sono aderire alla superficie delle nostre terme con adesivi leader di mercato e stucchi epossidici, progettato specificamente per far fronte al calore, resistenza alle flessioni, acqua e sostanze chimiche.

# FIXTURES & FITTINGS

Wide range of gratings available.

Regular and sectional balance tanks are available in any desired dimensions.

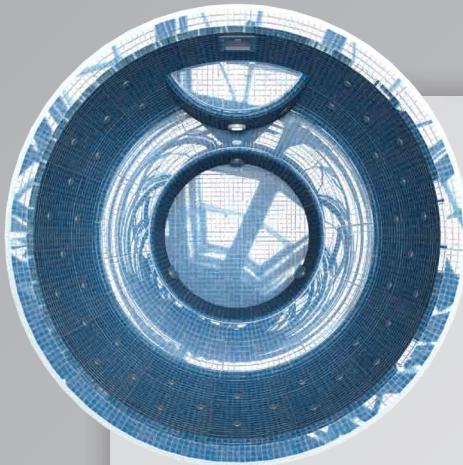

A wide variety of jets are installed in our spas along with skimmers, lights and suctions.

(Whirlpool jet, River Jet)

(Skimmer, Cluster Jet, Poly jet, Return jet, Light, Domestic Suction, Commercial Suction)

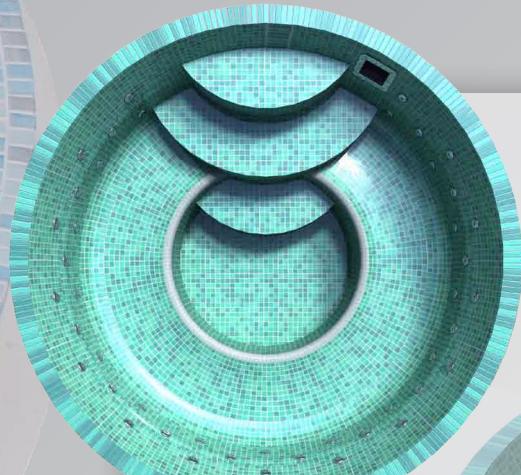

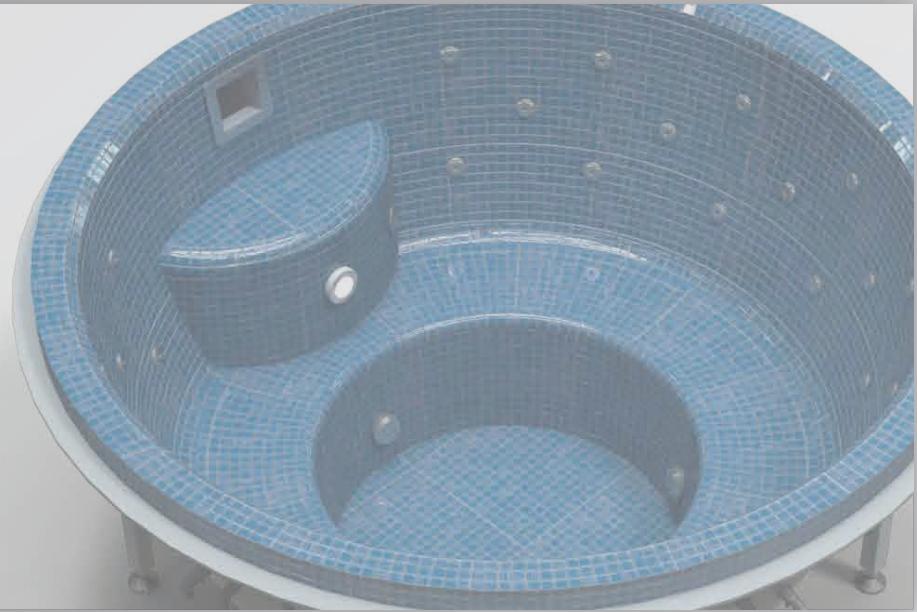

A large, round hot tub with a vibrant blue mosaic tile pattern. The surface is covered in small, square tiles in various shades of blue, creating a textured appearance. Numerous circular jets are embedded in the top surface, arranged in a curved pattern. The hot tub is set against a plain, light-colored wall.
